

Didn't Expect to Live

In a letter to the Pinus Laboratories, Mrs. G. O. Walker, of Walker, Lane County, Oregon, writes: "I have been taking Fruitola and it has been a great relief. I suffered so with gall-stones my family and friends didn't expect me to live."

Fruitola is a powerful intestinal lubricant and softens the hardened particles that cause so much suffering, expelling the congested waste in an easy, natural manner, to the sufferer's relief. A single dose is usually sufficient to clearly indicate its efficacy. To build up and restore the weakened, run-down system, Traxo is highly recommended as a tonic-alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation.

Fruitola and Traxo are prepared in the Pinus Laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Anderson they can be obtained at Evans' Pharmacy, Three Stores.

33 BALES OF COTTON DESTROYED BY FIRE

MR. WILL STEPHENSON SUFFERED HEAVY LOSS
YESTERDAY

NO INSURANCE

33 Bales Were Stored in Front
Yard on Place Just Below
City Limits.

Fire yesterday afternoon between 2:30 and 3 o'clock destroyed thirty-three bales of ginned cotton, the property of Mr. Will Stephenson, a prominent farmer on his farm about three and one-half miles below the city, entailing a loss of approximately \$2,000 with no insurance.

The fire is said to have started from some matches, one of the little boys on the place having been around the cotton playing with matches. The cotton was stored or rather placed in a pile in the front yard of the house, thirty-three bales being in one pile. A short distance away there were six more bales in one pile, but these were not damaged.

Mr. Stephenson is an extensive farmer and although this is not nearly all of the cotton he has raised this year, it means a great loss to him. At the present selling price this cotton would have brought about \$2,000.

PLAN TO CELEBRATE COMPLETION PAVING

COMMITTEE IS APPOINTED
TO MAKE ARRANGEMENTS FOR THIS

JOBS ACCEPTED

Paving Commission Met and Accepted Work on S. Main and River Streets Yesterday.

A special meeting of the paving commission was held yesterday afternoon at 4 o'clock for the purpose of accepting the South Main and River street jobs, this work having been completed some time ago. All of the members of the commission having inspectors of the commission having inspected the work in charge, and Mr. Gilbert C. White of Charlotte, consulting engineer, having stated that they saw no reason why the work should not be passed upon, the commission by unanimous consent voted acceptance.

The work on these streets having been accepted, payment will be included in the next regular settlement which will be made tomorrow.

Decide to Celebrate.
A committee consisting of Mayor J. H. Godfrey, chairman, Dr. D. A. Ledbetter and Mr. Charlie Spearman was appointed to make plans for a big celebration which will be held when all of the paving work is completed and in which all of the people may take part. This committee will report at the next meeting of the commission.

The treasurer, Mr. D. A. Ledbetter, reported that during the month of October the paving commission money deposited in the banks had realized \$200 in interest and that during the month of November it would be about \$150.

THOUSANDS OF POLES VERGE OF STARVATION

Homeless People Living in Caves and Abandoned Trenches in Desolate Country.

Warsaw, Nov. 29.—Via London. Nov. 29.—Hundreds of thousands of the civil population of the Warsaw district of Poland are suffering for want of food. A considerable percentage of the homeless are living in huts, caves and abandoned trenches. The situation is increasing in seriousness because a large number are thrown out of work by the almost complete paralysis of the Polish industries. Some emigrated to Germany where work is plentiful but a great majority prefer to remain here. Prominent Poles maintain that unless there are drastic relief measures soon, wholesale deaths from starvation will result. Already many have starved and others have died from disease superinduced by hunger. The Germans are doing all they can to stop the epidemic and slowly but surely seem to be getting sanitary conditions righted. The entire country is laid waste. In the Warsaw gubernatorial district alone four thousand villages were destroyed by the Russians in their retreat. The government is giving out a flour supply sparingly in an effort to stretch it over until the next harvest. Women are so undernourished they cannot feed their babies.
